

The image shows the interior of a dome-shaped structure, likely an Iglu360. The structure is made of a wooden frame with a clear PVC cover. Inside, there is a round table covered with a grey tablecloth, surrounded by dark brown wicker chairs. A vase with greenery and purple flowers sits on the table. The floor is made of wooden planks. The lighting is warm, suggesting an indoor or heated environment.

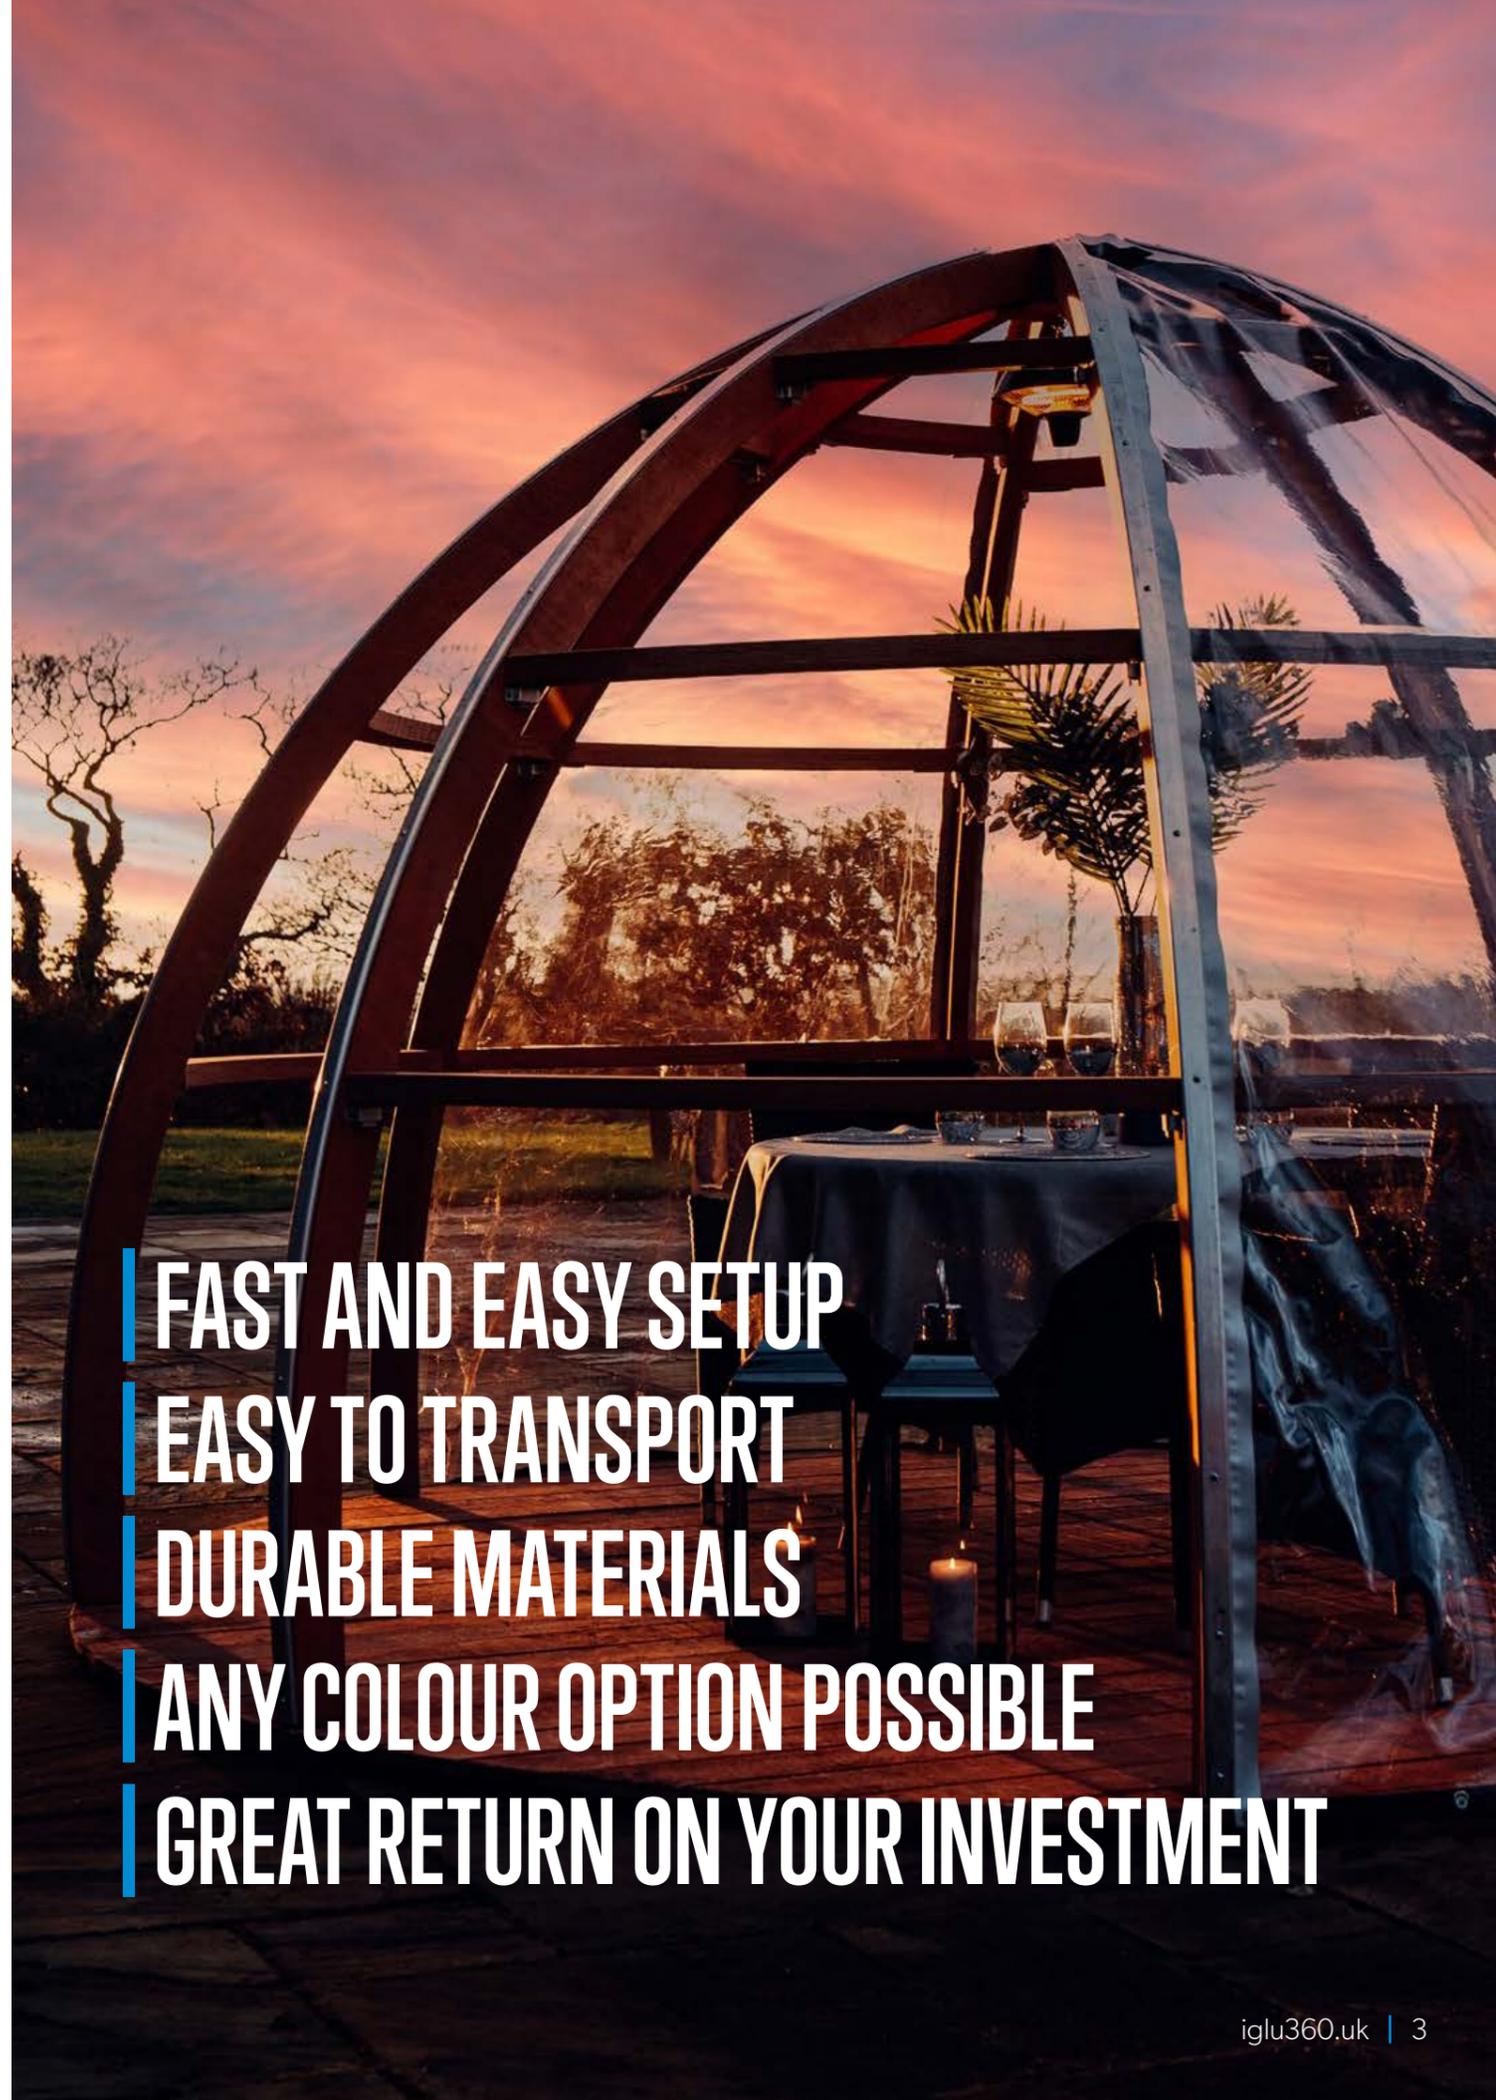

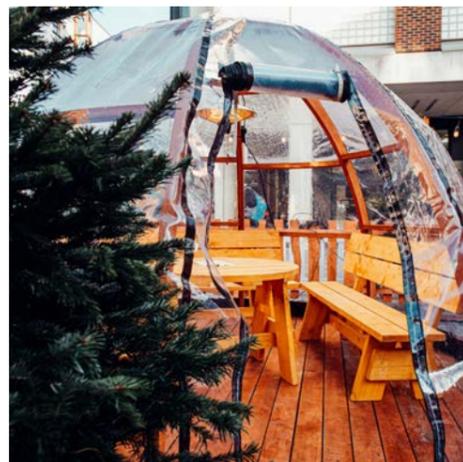

MORE POPULAR THAN EVER...

- Iglu360, the must have for the latest contemporary look to upgrade your business (restaurants, garden centres, pubs and pop-up events).
- Ensuring to be the most booked-up attraction throughout the UK, Europe and USA.
- Popular during Winter as they provide a heated covered outdoor seating area.
- Just as popular in Summer when the clear PVC cover can be simply removed (partially or completely).
- Great return on your investment, as guests are prepared to pay extra for this novelty and also extends your indoor seating capacity to the outdoors.
- The Iglu360 dome is comfortable for up to 8 people.

WHY?

- Thanks to over 14 years' experience in the event and hospitality industry, we have a keen understanding of our customers needs.
- The demand for heated, outdoor seating continues to grow.
- Customers value a personal and intimate experience where they can spend quality time together.
- Revenue from Iglu bookings exceeded our catering revenue, confirming their popularity with our customers.
- Our Iglu's create perfect exterior seating areas for all seasons.
- For pop-up bars and events, we have created our screw-free speedy bracket system. Fast and easy setup within 15 minutes and without to use of power tools.
- Our Iglu's have been manufactured using high quality 40mm plywood and 0.8mm durable PVC covers. They are manufactured in the UK to the highest quality.
